About Me

Hi! I am Premkumar Patil, currently pursuing B.Sc. Computer Science and studying Web Development. I am currently studying HTML, CSS, JavaScript and React.js. I love learning how websites are built. I practice on small projects and try to learn something new every day. Currently, I'm learning and growing — one line of code at a time!

Project

- **GlowTrack – Smart Study Timer Web App (2025)**
  Tools & Technologies: HTML, CSS, JavaScript (or React), VS Code
  Developed a smart study timer web application designed to help students manage their study sessions effectively. Key features include a countdown timer, session logs, and break reminders. The app promotes focus and productivity through structured Pomodoro-style intervals.

  Key Features:
- Timer with start/pause/reset functions
- Track study and break intervals
- Clean and responsive UI design
- Built using modern front-end web technologies
